SUMMARY

Senior iOS Developer with 13+ years of experience building and maintaining applications for International markets in the US, UK, Australia and Malaysia. Deep expertise in Swift, SwiftUI, Objective-C, UIKit, and hands-on experience with Flutter and Kotlin/Android. Currently leading iOS and Android development for ScrapBays, a UK-based platform used by 10K+ users. Contributed to Mindvalley's award-winning NextGen app, including improving app performance by reducing load times by 50%, and played a key role in the success of Giflist, a US-based platform with 1K+ App Store reviews. Proven track record of building scalable architectures and delivering products for B2B marketplace, e-commerce, fintech, aviation, e-learning, and consumer apps with strengths in clean code, CI/CD, technical problem-solving, product ownership, technical leadership and good communication skill.
